

ECONOMICS AND THE ENVIRONMENT SINCE THE 1950S – HISTORY, METHODOLOGY AND PHILOSOPHY

International Workshop

21-22 March | Reims
University of Reims Champagne-Ardenne

PSDR4

9:45-10:15 Registration of the participants

10:15-10:30 Introduction

10:30-11:30 Keynote lecture

Edward B. Barbier (Colorado State University, United States)

From limits to growth to planetary boundaries : How the concept of natural resource scarcity has evolved.

11:30-11:45 Coffee break

11:45-12:45 Session 1

Ali Douai (University of Bordeaux, France)

Is there any institutional ecological economics?

Michael Hutter (University of Lausanne, Switzerland)

The influence of Applied Systems Analysis as a tool for the combining of economics and the environment: a critical history of the institutional work at the International Institute for Applied Systems Analysis (IIASA).

12:45-14:00 Lunch

14:00-16:00 Session 2

**Nona Nenovska (University of Paris 7 Diderot, France) and
Nikolay Nenovsky (University of Amiens, France)**

*History of Balkan thought. A focus on thermodynamics and
energy in economics.*

**Quentin Couix (University of Paris 1 Panthéon-Sorbonne,
France)**

*Physical and Economic Dimensions in Georgescu-Roegen's
Flow-Fund Model.*

**Romain Debref and Franck-Dominique Vivien (University of
Reims Champagne-Ardenne, France)**

*What bioeconomy ? A study of the French controversy in the
late 1970s.*

**Nicolas Béfort and Manuel E. Morales (Neoma Business
School, France)**

*A review of waste conceptualization – revealing the
controversy regarding its commodification.*

16:00-16:30 Coffee break

16:30-18:00 Session 3 (in French)

Arnaud Diemer and Timothée Parrique (University of Auvergne, France)

Est-ce que les pays riches sont responsables de la dégradation de l'environnement ? Retour sur les débats et controverses autour de l'équation IPAT.

Annette Disselkamp (University of Lille 1, France) and Delphine Pouchain (Sciences Po Lille, France)

La filiation Leopold-Potter-Georgescu-Roegen : appréhender la bioéconomie à la lumière de la bioéthique.

Sylvie Ferrari (University of Bordeaux, France)

L'éthique environnementale chez N. Georgescu-Roegen et son apport à l'économie écologique.

18:00 Cocktail

20:00 Social dinner in the city center (optional)

9:30-11:30 Session 4 (in French)

Philippe Méral (University Paul Valery, France)

Quelle place l'évaluation monétaire des services écosystémiques occupe-t-elle dans l'histoire de l'économie de l'environnement vs économie écologique ? Retour sur l'article de Costanza et al. (1997) dans la revue Nature.

Christophe Cassen and Antoine Missemmer (CNRS-CIRED, France)

La structuration de l'économie de l'environnement et du développement en France : le cas du CIRED (1968-1986).

Catherine Figuière and Renaud Metereau (University of Grenoble Alpes, France)

Ignacy Sachs et l'écodéveloppement : Quelles congruences avec l'économie écologique ?

Waly Bocoum and Franck-Dominique Vivien (University of Reims Champagne-Ardenne, France)

Un destin hors du commun ? Retour sur Garrett Hardin et "The Tragedy of the Commons".

11:30-12:00 Coffee break

12:00-13:00 Session 5

Nathalie Berta (University of Reims Champagne-Ardenne, France)

The least-cost theorems in the 1960s, a third way between Pareto optimality and traditional regulation.

Robert Leonard (University of Quebec at Montreal, Canada)

Not an environmental economist: E. F. Schumacher on economics and the natural world, 1940 – 1977.

13:00-14:15 Lunch

14:15-15:15 Session 6

Clive Spash (WU Vienna University, Austria)

The Revolution that Never Was: Environmental Economics.

Antonin Pottier (EHESS, France)

The fragile cornerstone of resource economists: Is Hotelling's model relevant?

15:15-16:15 Keynote lecture

John O'Neill (University of Manchester, UK)

From socialist calculation to political ecology

16:15 Closing words | Champagne

Note
