

## 2 ways to be admitted

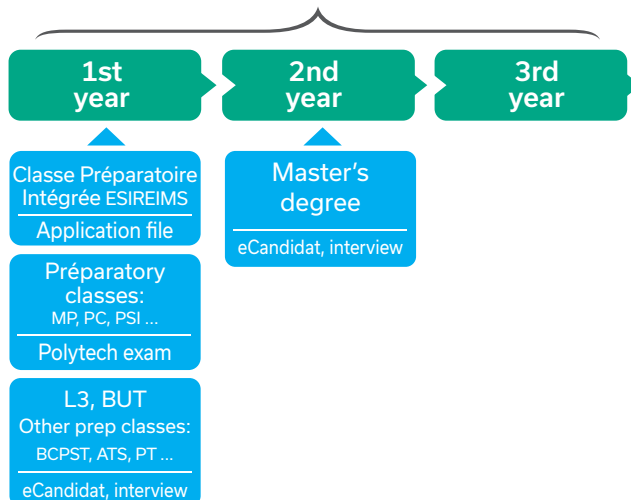

### After a high school diploma

#### Engineering preparatory class «CPI» and «SPI»

### After a 2-year or 3-year undergraduate degree

#### Engineering classes

#### • YOU ARE ABOUT TO GET YOUR HIGH SCHOOL DIPLOMA:

You have to apply on Parcoursup website to get into ESIREIMS Engineering preparatory class.

The recommended majors are: Maths, Physics/Chemistry, Engineering Sciences, or Biology. The expert math option is highly recommended.

#### • YOU ARE ABOUT TO GET A 3-YEAR UNDERGRADUATE DEGREE:

You have to apply on eCandidat and you will be interviewed to get into ESIREIMS Engineering classes.

▪ **BS:** Any Bachelor's degree in Science.

▪ **Technology degree:**

- **Packaging engineering:** Physical measurements, Packaging, Mechanical and Production engineering, Chemistry engineering, Biology engineering...
- **Energy engineering:** Thermal and Energy engineering, Materials and Science engineering, Civil engineering, Mechanical and Production engineering...
- **Environmental and Urban Planning engineering:** Sustainable building Civil engineering, Energy and Thermal engineering, Physical measurements, Materials and Science engineering, Biology engineering, Networks and Telecommunications...

▪ **Other diplomas:** contact ESIREIMS.

#### • YOU ARE IN A PREPARATORY CLASS:

▪ **In MP, PC, PSI classes:** Polytech competitive exam – You have to apply on [www.scei-concours.fr](http://www.scei-concours.fr)

▪ **Other preparatory classes (BCPST, PT, ...):** You have to apply on ecandidat and you will be interviewed to get into ESIREIMS Engineering classes. You have to be eligible for an engineering school, or have 120 ECTS at least.

#### • YOU ARE ABOUT TO GET A MASTER'S DEGREE (OR EQUIVALENT):

You have to apply on ecandidat and you will be interviewed to get into ESIREIMS Engineering classes.

## ANNUAL TUITION

ESIREIMS is a French public engineering school. Fees are those of the University of Reims Champagne-Ardennes, and they are set each year by the Ministry of Higher Education, Research and Innovation.

## ESIREIMS "CPI" AND "SPI" BS ADMISSIONS: PARCOURSUP

Formation licence - sciences pour l'ingénieur - Parcours classe préparatoire intégrée à dominante Packaging, Energie, Environnement

## ENGINEERING STUDIES ADMISSIONS:

The schedule of the admissions can be found on the ESIREIMS website: [www.esireims.fr](http://www.esireims.fr)

More info

## FOREIGN CANDIDATES:

Foreign students can be admitted to engineering studies at ESIREIMS. They must:

- Have a B2 level in French (Common European Framework of References for Languages).
- Have a scientific and technical university degree.

### • CANDIDATES FROM THE EUROPEAN UNION:

Candidates are recruited by submitting an application on URCA's eCandidat platform, followed by an interview

### • CANDIDATES OUTSIDE THE EUROPEAN UNION:

#### ▪ Students from countries having the "Études en France" program

You have to apply for the 'Etudes en France' (ex-Campus France) program.

**It is compulsory to get through this program application to be accepted to ESIREIMS.**

#### ▪ Students from countries which don't have the "Études en France" program

You have to send your application:

- **by mail to:** ESIREIMS, 3 Esplanade Roland Garros, 51100 Reims - France
- **or by email to:** [scol.esireims@univ-reims.fr](mailto:scol.esireims@univ-reims.fr)

For further information, please visit the University of Reims Champagne-Ardenne website:  
<http://www.univ-reims.fr/> section « Vous êtes : étudiant étranger ».
