EURAXESS WELCOME EVENTS

2019-2020

The integration of international audiences: students and researchers, is a priority for our institution. Every month, an intercultural event will be proposed for you to have a better adaptation in our City and within our University. Enjoy the many opportunities to meet other students and colleagues !

Throughout the year: French courses

Stimulated by a dynamic and available team, the CIEF aims mainly for the linguistic and cultural preparation of the non French-speaking students, joining them in the university study courses.

All new researchers will be given the opportunity to attend french courses and increase their skills in French.

The training uses both e-learning and on-site training with a native speaker teacher (2 hours a week, at the end of the afternoon)
